

# STAINLESS STEEL SILO

THE HIGHEST RESISTANCE  
FOR YOUR PRODUCTS.

**AGRIFLEX®**

since 1975

# LONG-LASTING STURDY ONE-PIECE STRUCTURE

Designed for **outdoor storage**, **steel silos** are made of welded stainless steel sheets that create a **jointless one-piece structure resistant to any weather conditions**.

Storage capacity can be up to 200 m<sup>3</sup> depending on silo diameter and height.

**VERY HIGH RESISTANCE  
AND LOAD CAPACITY  
UP TO 200 M<sup>3</sup>**

They usually come complete with accessories for the protection of the stored products.

Areas where accessories, insulation and dehumidification systems are installed, **can be easily accessed for maintenance**.

An aluminium version can be supplied upon request.

**Ideal for storing granular and powdered food products and some plastic materials, such as:**

Flour

Sugar

Rice

Grains

Plastics

1. Filter
2. Electronic pressure sensor
3. Explosion vent
4. Spring-loaded pressure relief valve (opening in either direction to prevent build-up of excessive pressure or vacuum)

## Filter

The silo filter (to filter loading air from the truck) can be either roof-mounted or separated and placed at the base of the silo.

## Weigh cells

4 load cells of a suitable capacity placed at the base of the silo; product level thresholds can be set directly.

## LONG-LASTING

It is made of welded stainless steel metal sheets that create a one-piece structure; long-lasting and highly resistant.

## OUTDOOR STORAGE

Steel silos are usually installed outside to save space inside the warehouse.
