

CONFECTIONERY TECHNOLOGY

[Colatrici per biscotti. Catalogo generale]

[Biscuit depositing machines. General catalog]

raggiungiamo un'esperienza maturata in anni di produzione di biscotti. La nostra struttura si è evoluta ad una struttura che risponde alle novità tecnologiche e alle richieste della clientela, garantendo un servizio affidabile a livello internazionale e una vasta rete di vendita

experience gained throughout many years of activity in the manufacture of biscuit depositing machines.

Their dream, their ambitious goal of developing a modern and dynamic company, focused on innovative technology and great commitment to customers' requirements, has today become a consolidated and world-renowned company, supported by a wide commercial network and careful after sale service all over the world.

QUALITÀ E AFFIDABILITÀ

Know-how, sviluppo di prodotto, ricerca tecnologica sono alla base dell'eccellente qualità delle nostre macchine colatrici e ne garantiscono affidabilità, solidità e resistenza.

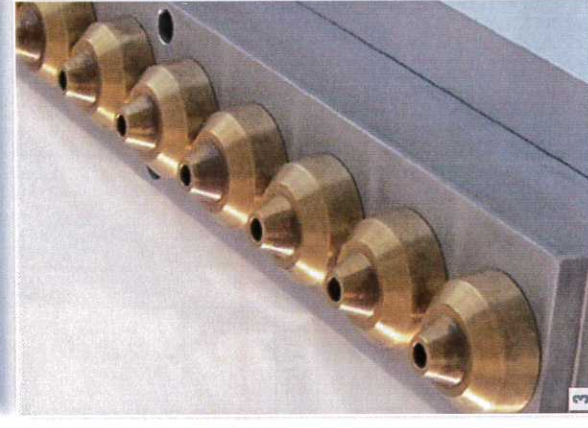

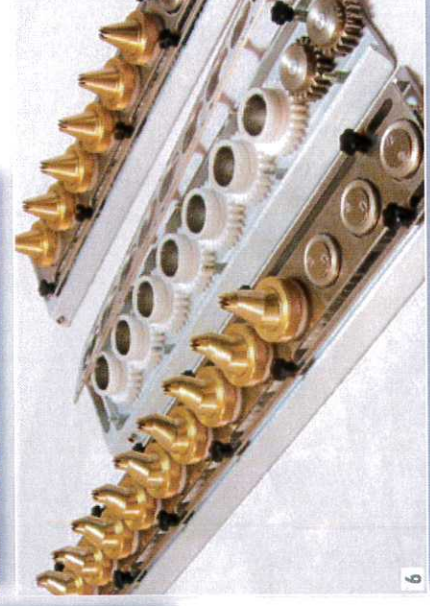

Delfin è in grado di offrire soluzioni flessibili e funzionali per soddisfare le più svariate esigenze di produzione. I dispositivi e i meccanismi impiegati nelle nostre macchine coniugano le più moderne tecnologie con la semplicità d'uso e la praticità nella manutenzione, nel rigoroso rispetto delle normative europee sulla sicurezza.

TEAM

Our team includes mechanical engineers and designers, skilled technicians, experienced installation, testing and training personnel, multilingual salesmen. Our staff is selected according to competence, experience, and personal helpfulness, all this granting essential and precious input for our customers' satisfaction, as well as for our company reliability.
